PPWR / Material Declaration

This elastic yarn is used as bundling and packaging material. Material composition: approx. 80 % Polyester (PES), 20 % Rubber To the best of our current knowledge, the product does not contain any intentionally added prohibited substances according to current EU regulations. The information is based on supplier data and our current level of knowledge.

Due to the combination of materials (polyester/rubber), this product is not considered a mono-material.
